Orientation Seminar
“PMI Ways of Successful Project Management and its Global Footprint”

SPEAKER
ENGR. ASGHAR ALI SYED
Executive Vice President
PMI-KPC

Session Synopsis
Project Management Institute (PMI) provides a “roadmap” that is easily followed for successful project management and leads to project completion. The session will cover project management fundamentals and PMI ways of defining a project according to project life cycle.

Benefits of Attending
By implementing fundamental project management strategies, you will direct your focus to reach desired goals within specific time and cost perimeters. The final result is that everyone comes out a winner - which just may be Project Management’s best benefit of all. Orientation of PMI ways of project management and its global activities in this regard will provide career guidance for beginners and experienced professionals.

Speaker’s Profile
Engr. Asghar Ali Syed, is an experienced professional with 36 years contribution to industry, mainly in upstream and downstream Oil & Gas sector of Pakistan. PARCO for 24/7 Oil Pipelines operation assigned him responsibilities in Departments-Coordination & Engineering Services, P/L Operations, Telecom / SCADA and Leadership for ISO Certifications. He also worked for OGDC as Seismic Programmer and Computer Engineer. During his career he had been in-house Trainer and Teacher in Engineering Colleges & Polytechnics. Presently he is volunteering in PMI Karachi Pakistan Chapter as Executive Vice President. He had also been VP Governance & Policy / Admin in the Chapter.
