### Admission Requirement

The candidate should possess 16 years of education in the field of Textile, i.e., BE or BS with a CGPA of 2.4/4. The candidates who have done M.Sc. in Applied Physics and Applied Chemistry with enough experience in the field of Textiles can also apply for this program with a CGPA of 2.4/4. All the degrees should be obtained from HEC Recognized Institutions.

### MS Textile Management

MS Textile Management program is the unique program as it combines the courses of Textile Sciences and Management.

Most of the Textile graduates work in the middle management of the industry, so they normally tend to continue their education by doing Masters in Business Administration.

This program offers them an opportunity to continue their education in the field of Textile Management. During this course, they will be equipped to meet the challenges of managing the industry.

The courses offered in this program cover the fields of fabric forming, textile finishing, merchandizing, and technical textiles, along with some management courses as brand management and textile computer integrated enterprise. These courses will certainly help the students to manage their job efficiently.

### Career

The textile industry is one of the biggest industries of Pakistan. The graduates who are already working in this field play a vital role in planning and managing. The courses offered will help the students to perform their jobs efficiently and effectively. In this field, there is still a lot of scope for people who are experts in textiles and also have the skills of planning and management.
