

Develop Pedagogical Tools & Conduct Trainings to Build Capacity for the Integration of Intangible Cultural Heritage into University Coursework in Tharparkar, Sindh

The initiative titled “Development of Pedagogical Tools and Capacity-Building Trainings for the Integration of Intangible Cultural Heritage (ICH) into University Coursework in Tharparkar, Sindh” is funded by the UNESCO Project Community-Based Inventorying and Capacity Building of the Indigenous Communities for Safeguarding Intangible Cultural heritage in Sindh and Khyber Pakhtunkhwa Provinces, under UNESCO’s Intangible Cultural Heritage Fund.

Project Rationale and Methodology

Initial fieldwork includes consultations with community networks and tradition bearers across Tharparkar, leading to a Stakeholder Consultation Session that will develop a collaborative Roadmap for integrating and safeguarding Intangible Cultural Heritage (ICH).

Project Milestones:

- Re-engaging 19 tradition bearers to ensure meaningful participation in the Stakeholder consultation sessions
- Creating a gender-inclusive approach
- Development of ICH-based Pedagogical Tools to be incorporated in higher education
- Development of Roadmap for sustainable ICH preservation
- Development and Pilot Testing of Pedagogical Tools
- Capacity-Building and Community Empowerment
