ABOUT SYMPOSIUM

Pakistan Institute of Management (PIM) and Integrated Corporate Management Solutions Pvt., Ltd, (ICMS) in collaboration with Karachi Pakistan Chapter of Project Management Institute (PMI) USA and Center of Excellence – CEPC, Pakistan are organizing the symposium.

Project Management is a management concept of the 21st Century that needs promotion and awareness across the professional disciplines in Government, Public and Private Sectors. Being organized with this aim the symposium is expected to bring together the key stakeholders with global project management experts and help prepare for economic growth in Pakistan. Regarding strategic challenges, a special session will cover opportunities related to China Pakistan Economic Corridor (CPEC).

Objectives to be achieved from this Symposium are:

- Promoting more practical and realistic management concept of The Project Management.
- Creating awareness about the Power of Project Management for building best business strategies.
- Enhancing productivity & performance in organizational culture.
- Preparing business and industry to enhance excellence in performance and capture bigger share in economic flow on China Pakistan Economic Corridor – CPEC.
- Knowledge transfer through direct interaction with high repute International experts and explore business collaboration opportunities through networking.

WHO SHOULD ATTEND AND WHY?

No organization is exempt from disruption. So, whether you're an experienced project manager or new to the profession, helping your organization to change and adapt is crucial to your role.

► Earn PDUs and CPDs

Earn the required amount of Professional Development Units (PDUs) to meet the Continuing Certification Requirements (CCR) for your Project Management Professional (PMP)® certification.

Earn the required amount of Continuing Professional Development (CPDs) to meet the Pakistan Engineering Council (PEC) Requirements.

► Learn valuable skills

Step away from meetings and distractions to better absorb and apply the skills you've set out to learn.

► Find your inspiration

We chose our keynote speaker not only for his expertise but for his passion and ability to inspire you towards excellence.

► Stay current

Keep ahead of competition and stay relevant by learning the latest trends and best practices.

► Make connections and share successes

Ask questions, seek advice and explore opportunities from a new alliance, business partner, mentor or employer. Share your project management successes and honor the best of our profession.

► Become more visible

Meet experts and influencers in your industry or field. Share knowledge and new ideas to give back, advocate and stand out.
