

**IPCS (Ideal Proposition Cyber Security), Riyadh Saudi Arabia and MCS (Meraal Cyber Security) Lahore, Pakistan – 2024**

Field	Details
MoU Name	MOI between IPCS (Ideal Proposition Cyber Security), Riyadh Saudi Arabia and MCS (Meraal Cyber Security) Lahore, Pakistan and NED University of Engineering & Technology, Karachi
Signed Date	November 01 2024
Validity	05 Year
Brief Description	This Memorandum of Intent (MoI) establishes a tripartite collaboration between NED University of Engineering and Technology, IPCS (Ideal Proposition Cyber Security) from Saudi Arabia, and MCS (Meraal Cyber Security) from Pakistan. The primary goal is to formalize collaboration in providing cyber security services to clients in Pakistan and to facilitate cooperation in research, training, and educational activities related to cyber security. NED University's role is to provide access to its research facilities, academic expertise, and student resources. This partnership promotes SDG 9: Industry, Innovation, and Infrastructure by linking a research institution with two cybersecurity firms (one international), and supports SDG 4: Quality Education by incorporating training, research, and knowledge sharing in a rapidly evolving technological field.
SDGs Mapping	SDG: 4 and 9
