

## Providus Technologies – 2025

Field	Details
MoU Name	MOU between Providus Technologies and NED University of Engineering & Technology
Signed Date	December 24, 2025
Validity	02 Years
Brief Description	<p>The purpose of this MoU is to foster collaboration between the University and the Industry Partner in the following areas:</p> <ol style="list-style-type: none"> <li>1. Organizing bootcamps and workshops to uplift skills and enrich practical knowledge.</li> <li>2. Providing consistent internship opportunities with stipends, including work on AI use cases and research assignments.</li> <li>3. Placing faculty members at Providus Technologies under a faculty placement program.</li> <li>4. Organizing coding competitions and hackathons that may lead to recruitment drives.</li> <li>5. Collaborating on research-oriented projects and consultancy, including delegating projects with commercial value to students under joint supervision. The AI Research Lab will be a joint environment for applied AI research, experimentation, and innovation.</li> <li>6. Providus Technologies will invest in hardware and equipment for the AI Research Lab and provide technical support for establishing a NED-owned AI cluster. Access to Providus Technologies' infrastructure will be extended to students and researchers working in collaboration.</li> <li>7. Strengthening the Industrial Advisory Board (IAB) of Computer Science and related disciplines at NEDUET with experienced leadership from Providus Technologies.</li> </ol>
SDGs Mapping	<p>SDG 4: Quality Education,            SDG 8: Decent Work and Economic Growth            SDG 9: Industry, Innovation, and Infrastructure</p>
