

URBAN DISASTER RESEARCH CENTER, BEIJING UNIVERSITY OF SCIENCE AND TECHNOLOGY – 2026

Field	Details
MoU Name	Letter of Intent to Establish a Joint Urban Disaster Research Center between Beijing University of Science and Technology and with NED University of Engineering and Technology
Brief Description	The collaboration between the two universities focuses on the following areas: 1. Academic Seminars and Lectures: Collaborating to host and conduct academic seminars and lectures focused on disaster prevention and reduction. 2. Information Platforms & Case Studies: Participating together in building information platforms by providing relevant disaster prevention cases and engineering cases. 3. Disaster Research & Governance: Carrying out joint exchanges and research cooperation specifically targeting urban disaster research and governance. 4. Knowledge Sharing & Education: Collaborating to promote and publicize knowledge regarding disaster prevention and reduction.
SDGs Mapping	SDG 4: Quality Education SDG 11: Sustainable Cities and Communities SDG 13: Climate Action
