

# Technical Content Engineer - Web3

□ Location: Remote | Part Time | Salary: 50K to 100K | Experience: 2 years - 3 Years

**MetaSchool** (a project of Airschool) is a platform where developers hangout to learn web3 with each other, collaborate on projects, earn NFTs for completing their work, and connect with talented folks building the future of the web!

Our learners rely on us to create engaging courses to get better at their job, find a better job, or experience the joy of learning. With the courses that you create, learners can maximize their success.

## Core Responsibilities:

**Technical Content Engineers (TCE)** are distinguished by their abilities to explain complex topics in a way that is useful to their audience. They create engaging technical content and work with subject matter experts to build courses on the platform.

**Your responsibilities will include:**

- **Lead course development from inception to launch, including project plan development, coordination with internal and external stakeholders, and collaboration with engineering teams for bug fixes or new feature requests.**
- **Research, plan and create text based, interactive courses for engineering audiences.**
- **Review and suggest edits to courses written by subject matter experts ensuring editorial and technical quality standards are met.**
- **Develop expertise on platform capabilities to effectively create courses and guide external authors in fully utilizing platform features in courses.**
- **Monitor technical developments to contribute to course strategy and ensure that MetaSchool courses are responsive to learner needs.**

## About you:

- **Understanding of computer science concepts, such as data structures and algorithms.**
- **Familiarity with Web3, Solidity, Ethereum, DeFi protocols, NFT etc.**
- **Passionate about learning new programming languages and technologies.**
- **Excellent written communication skills in English.**
- **Self-directed, goal-oriented, and disciplined**

- **Strong time management skills**

**Airschool's focus is on building a terrific team with a motive to learn through sharing expertise and experiences. We are an equal opportunity employer and remote-first company. Every team mate has full autonomy and we believe in shipping fast and moving quickly. If you are interested in working in a fast paced environment with a small team of highly focussed individuals, you would love working with us.**

**Excited to see you around!**

**Email to [careers@airschool.com](mailto:careers@airschool.com) with cover letter, and portfolio, mentioning the Job Title in the subject.**
