

Decojent is looking to hire a full time **“Junior UX Designer”** who will be assisting in designing experiences for large-scale enterprise level applications.

Location: Gulshan-e-Iqbal, Karachi

Timings: Monday to Friday 10:00 AM to 07:00 PM

Compensation

- Market Competitive
- Health Takaful (IPD+OPD)
- Company sponsored International and Local trips for vacations
- Paid leaves
- An environment that empowers you to unleash your superpowers

What you should expect

- You will be working on large-scale enterprise applications with multi-dimensional complex UX challenges,
- FIGMA and Sketch as working tools
- Ergonomic workplace
- High degree of autonomy
- On-job learning opportunities

Fun Activities / Employee Engagement Activities

- Indoor games
- Team Outings (Movies / Eatout)

Required Key Skills

- Solid understanding of basic design principles
- Understanding of web and mobile app components
- Understanding of UI design patterns (reusable components)
- Ability to do Custom Iconography

After working with us for 6 months, You should be capable to

- Translate user needs and business requirements into tangible ideas such as rough sketches and user journey maps
- Do information architecture/wireframe with raw complex data. You need to have a strong understanding of user interface design patterns and how data can be presented in variety of ways according to the use-case
- Understand how a 'design system' can be defined for re-usable design guidelines, components and experiences.

"We don't have non-designer product/project managers. The CEO and UX Manager have been hands-on for several years. Thus, you will get genuine design feedback"

About us

Decojent is a digital product design company located in Karachi, Pakistan. We love to design challenging digital products.

Decojent was founded in 2016 by Mohiuddin Parekh, a UX Designer himself. Mohiuddin aimed to build a company that can provide design services with purpose and meaning. In a short span of time, Decojent has delivered remarkable product design and user experience services to clients across different industries and regions.
