- **Job Type:** Full Time/ Permanent
- **Job Shift:** First Shift (Day)
- **Job Location:** Karachi
- **Department:** Information Technology
- **Experience:** 6 months to 1 year
- **Required Qualification:** BS in Computer Science

1. Node Js:

We are looking for a Node JS Developer to become a part of our team to help us develop.

Candidate will be responsible for building and maintaining the RESTful services and will play a key role in the development of our projects.

The candidate must have hands-on experience in MySQL or Mongo DB Responsibilities.

Strong proficiency with JavaScript- Knowledge (ES5 and ES6) of Node.js and frameworks available for it eg: Express Js- , sequelize Understanding the nature of asynchronous programming

1+ years of Node JS Experience

Understanding of how to build and consume REST APIs

Candidate must be able to effectively communicate.

Interested candidates can send their resume at hr@markematicsdigital.com

2. Python Web Developer:

We are looking for a Python Web Developer responsible for managing the interchange of data between the server and the users. Your primary focus will be the development of all server-side logic, ensuring high performance and responsiveness to requests from the front-end. You will also be responsible for integrating the front-end elements built by your co-workers into the application; therefore, a basic understanding of front-end technologies is necessary as well.

Responsibilities:

- Writing reusable, testable, and efficient code
- Design and implementation of low-latency, high-availability, and performant applications
- Integration of user-facing elements developed by front-end developers with server side logic
- Implementation of security and data protection
- Integration of data storage solutions

Skills and Qualifications:

- Able to integrate multiple data sources and databases into one system.
- Understanding of the threading limitations of Python, and multi-process architecture.
- Good understanding of server-side templating languages.
- Basic understanding of front-end technologies, such as JavaScript, HTML5, and CSS3.
- Familiarity with event-driven programming in Python.
- Proficient understanding of code versioning tools.

Interested candidates can send their resume at hr@markematicsdigital.com

3. REACT Developer:

We are looking for a skilled react.js developer to join our front-end development team. In this role, you will be responsible for developing and implementing user interface components using React concepts.

Responsibilities:

- Meeting with the development team to discuss user interface ideas and applications.
- Reviewing application requirements and interface designs.
- Identifying web-based user interactions.
- Developing and implementing highly responsive user interface components using react concepts.
- Writing application interface codes using JavaScript following react.js workflows.
- Troubleshooting interface software and debugging application codes.
- Developing and implementing front-end architecture to support user interface concepts.
- Monitoring and improving front-end performance.
- Documenting application changes and developing updates.

Interested candidates can send their resume at hr@markematicsdigital.com
