

**Title: Sr. Frontend Developer**

**Location: Pakistan**

**Role Type: Fulltime, Remote (Eastern Standard Time)**

**Experience & Qualification:**

- Minimum Bachelors' degree in Software Engineering, Computer Science, or related field.
- 2-4 years of experience working with React JS language.

**Required hard skills:**

- Language/Frameworks: JavaScript/TypeScript, ReactContextAPI, Redux/Mobx.
- Concepts: State Management, Unit Tests, Integration Tests, Dependency Injection, Semantic Versioning, Clean Architecture, DDD, TDD.
- Environment: Docker, CI/CD (just how to use understanding).

**Desired hard skills:**

- Databases: ElasticSearch (just using experience).
- Environment: GitLab

**Soft skills:**

- You love to keep your work organized.
- You must know how to work with CodeReview.
- For you, receiving negative feedback on your PR is a motive to grow instead of giving up.
- Work with a severe pipeline (a lot of quality/security steps) is not an issue for you.
- Your ability to speak in English is enough to communicate.
- Working with a small team needs to have very open communication, and you like that.
