ARE YOU AWESOME?

# BE OUR NEW DATA ENGINEER.

Send your CV to [careers@marketlytics.com](mailto:careers@marketlytics.com)

We at **MarketLytics** are looking to expand our Data Engineering Division and are seeking to add experienced people to our team. Details of the job can be read **here**. Reaching out to your Alumni with experience of at least 1 year and up to 5 years in the field of data engineering, computer science, applied mathematics, or engineering would be ideal for us.

We are a digital analytics agency, and a Google Analytics Certified Partner that has helped 400+ companies collect accurate analytics and put their data to use. With a team of over 30 people, during 10 years of consulting in digital analytics, we've come to be relied upon by fast-growing SaaS Startups & E-commerce operations. Marketing Agencies, and renowned Consultants looking to deliver insights faster. We're operating out of Karachi, currently in the process of expanding, and open to new potential and talent placed remotely as well.

We look forward to receiving the resumes of your students to assess and offer a chance to work for a promising organization before **30 September 2021**. They may send out their resumes at [careers@marketlytics.com](mailto:careers@marketlytics.com) with "Data Engineer" mentioned in the subject line.
