

Engineering Team Lead

Position: Full Time | Location: Remote | Experience: 6 - 7 Years | Salary: 200,000 PKR

[Airschool](#) is an educational platform that makes it easy for experts to teach live online, build an audience at scale and make money. Airschool is backed by EntrepreneurFirst and some of the leading investors in the world.

We are looking for an experienced and hands-on Engineering Team Leader who will own the responsibility and evolve engineering at Airschool. As the lead, you'll be participating in project scoping, estimation, and driving development of the product while setting up the engineering team up for success.

For this position

- You should have outstanding knowledge of web (Laravel) with understandings of industry proven methodologies.
- Properly implement team's overall operations and strategy
- Inspire and motivate a remote and growing engineering team
- Serve as the engineering leader and technical expert
- Check and confirm the accuracy of the work performed and the methods used by developers' team
- Training and development of engineers
- Ensuring documentation is provided, up to date and created where necessary
- Provide feedback on operational improvement and efficiencies
- Answer questions and resolve issues raised by the engineering team members
- Manage the progress that the team makes and review every day
- Monitor various metrics including team performance

Qualifications & Key Skills

- Minimum Bachelor's Degree in software engineering. MBA would be a plus
- 5 to 7 years of engineering experience, ideally in a management role.
- Proven experience of managing a team and launching products.

- Experience of taking a product from ideation to execution and subsequent launch.
- Leadership skills necessary to manage and develop a team
- Ability to work individually or as part of a team
- Enjoy taking complicated problems and converting them into simple solutions
- AWS Experience is a plus

Airschool's focus is on building a terrific team with a motive to learn through sharing expertise and experiences. We are an equal opportunity employer and remote-first company. Every team mate has full autonomy and we believe in shipping fast and moving quickly. If you are interested in working in a fast paced environment with a small team of highly focussed individuals, you would love working with us.

Excited to see you around!
