

**#KNYSYS** is looking to hire a Senior Software Developer to join a creative, energetic and fast-paced development team in Karachi, Pakistan. We are planning to grow our highly talented development team by inducting experienced graduates from reputable local or international universities. Candidates should be able to perform all phases of a given project (e.g. requirements, design, develop, document and support).

Minimum Requirements:

- Bachelor's degree in Software Engineering, Computer Science or Information Systems/Technology from reputable engineering university.
- 3+ Years' experience of using python/Php (React Js, .Net, JAVA, IOS & Android)

We offer very good compensation and benefits packages, a suitable environment for learning and development, and a long term growth opportunity for the right candidate.
