

## **Software Development Engineer**

### **Job Duties and Responsibilities**

As part of the geographically dispersed Sourcery CodeBench Eclipse/CDT team, work to develop new functionality and improve our IDE. The Developer is expected to be comfortable both contributing to and incorporating technology from the upstream development of Eclipse, CDT, and related technologies. The Developer will be passionate about producing embedded software development tools that are robust and easy to use.

### **Qualifications**

The ideal candidate will have:

- Strong programming skills. Proficient in one of the following languages: Java, C++, Python
- Good Object Oriented Analysis & Design skills
- Experience with Eclipse and/or CDT, preferably in the Embedded Software domain
- BSc/Msc in Computer Engineering, Software Engineering or related subject
- 1+ years of relevant experience
- Good communication skills
- Candidates who have not worked on Eclipse, but have worked on other IDEs will be considered.
- Knowledge of GNU tools, particularly GDB, RTOS or Embedded Linux is a plus
- Candidate must be a self-starter and have an ability to work independently

Last Date to Apply: **July 15, 2021**

Interested candidates can send their CVs on **pkl\_jobs@mentor.com** as well with the exact position title mentioned in the subject line.
