JOB DESCRIPTION

Job Title: Java Spring Boot Professional
Location: Karachi (Saddar) — On-site
Experience: 2+ Years
Employment Type: Full-time
Bond/Commitment: 2 Years

Job Summary

Our client is seeking a skilled Java Spring Boot Professional with strong backend development expertise and the ability to work across the application lifecycle. The ideal candidate will support the design, development, integration, and maintenance of applications while collaborating with cross-functional teams.

Skills

- Strong hands-on experience in Java & Spring Boot
- Proficiency in MS SQL and relational databases
- Understanding of modern development frameworks and integration practices
- Solid grasp of SDLC processes and best practices
- Analytical thinking, debugging skills, and problem-solving capability
- Preferably exposure to Golang
- Strong communication and collaboration skills

Key Responsibilities

Application Development
- Contribute to the full application lifecycle including development, testing, deployment, and maintenance.
- Design and enhance backend services and APIs using Java Spring Boot.
- Support the development of scalable and high-performing applications.

System Integration & Support
- Integrate applications with databases, services, and external systems.
- Troubleshoot and resolve development or production issues.
- Assist in deployments and ensure stability of live systems.

Collaboration & Improvement
- Work with users, developers, and stakeholders to ensure smooth delivery.
- Participate in architecture and solution design discussions.
- Maintain code quality through unit testing and best practices.

Qualification & Experience

- Bachelor's degree in Computer Science or a related field.
- 2+ years of experience in Java, Spring Boot, and MS SQL.
