

Ndctech, a licensed partner of Temenos, providing unmatched services and innovations to financial institutes and banks is currently recruiting **Project Trainees** and **Management Trainee's** for **NdcTech Digital** and **Transact** department:

**Requirements:**

- Please note that this project trainee and MT program will start in November and only students with evening/weekend classes should apply since working hours will be 9 am to 6 pm.
- For project trainees only graduating students should apply because we expect to induct them in our full time MT program.
- Only students who are in for a long term commitment with us and want to make a career with NdcTech should apply since we believe in only high reward investments!

**Qualification:**

Last semester of Bachelors/Masters in Computer Sciences

- The role will require the project trainee and MT's to get deployed on one of our Projects and get trained on it.
- For project trainee this is a 3-6 months project trainee position which will lead to automatic induction in Management Trainee Position based on performance, work ethic, ability to grasp things quickly and eagerness to learn.
- **Open positions: Project trainee = 10 and MT's = 60.**
- Deadline to submit CVs: **5<sup>th</sup> November 2021**
