Trainee Design Engineer

Paid On Job Training

Location: DHA Phase 8, Karachi

Job Type: Full-time (On-site) | Fresher Accepted

About Us

We are an Engineering Design Consultancy firm specializing in Engineering Design, Product Development, and CAD-based solutions.

Our team is growing! We are seeking recent Mechanical Engineering graduates who are ready to build their expertise and forge a career in Design and Product Development.

Position Overview

As a Trainee Design Engineer, you will work closely with senior engineers to transform new concepts into reality or optimize existing product designs, ensuring every design aligns perfectly with technical standards and project milestones, while maintaining the high-quality technical records.

Requirements

- Education: Bachelors or Master's degree in mechanical engineering, Industrial Engineering, or a related discipline.
- Skills: Recent Mechanical Engineering graduate or a professional with a prior knowledge of CAD (CATIA, Siemens NX, PTC Creo, Solid Works) – Preferred
- Communication: Articulate in English (both written and verbal) with the ability to translate technical concepts into clear documentation

Key Responsibilities

- Assist in developing new product designs and updating existing designs.
- Prepare, review, and update technical documentation and engineering reports.
- Ensure all design work complies with relevant technical specifications, standards, and functional requirements.
- Collaborate with design and engineering teams on project deliverables.

Interested Candidates send their resumes at
Sales@mtmsengineering.com mention tile in subject line.
