Career Opportunity – Quality Assurance Officer

Dipitt – Where Creativity Meets Growth

We are excited to share an excellent career opportunity with your students. Dipitt is looking for a dedicated QA Officer to ensure the highest standards of product quality, safety, and compliance across our sauces, mayonnaise, ketchup, and vinegar categories. This role is central to maintaining Good Laboratory Practices (GLP), Good Manufacturing Practices (GMP), and ensuring quality excellence at every stage — from raw materials to finished goods.

About the Role

As an **Assistant Brand Manager**, you will play a key role in driving **brand growth** through **strategic planning, innovative campaigns, and actionable insights**. The role involves cross-functional collaboration while ensuring Dipitt's brand identity remains consistent across all touchpoints.

Key Responsibilities

- Conduct analysis of incoming raw materials, packaging, semi-finished, and finished products.
- Ensure compliance with GMP, GLP, and product quality standards.
- Maintain accurate documentation and ensure timely reporting.
- Monitor and verify CCPs, QCPs, and product specifications across production lines.
- Oversee QA line inspectors and ensure adherence to SOPs and lab safety protocols.
- Conduct training and awareness sessions for QA teams and stakeholders.
- Manage calibration of lab equipment and verification of weights, volumes, and labeling.
- Support in complaint handling, RCA (Root Cause Analysis), and preventive measures.
- Ensure compliance with ISO and BRC standards and participate in audits.
- Promote continuous improvement and innovation within QA processes.

Requirements:

- **Education:** Bachelor's degree in Food Technology, Biochemistry, Microbiology, or related field (mandatory).
- **Experience:**
 - 0-1 years of experience in QA/QC operations within FMCG or food manufacturing.
 - Strong understanding of food safety, GLP, GMP, and HACCP standards.
 - Hands-on experience with lab testing, documentation, and audits.
 - Excellent attention to detail, analytical thinking, and stakeholder coordination skills.
 - Ability to manage pressure while maintaining accuracy and safety compliance.

How to Apply

Interested candidates are encouraged to apply using the following link
