NCCPL is hiring **Senior System Administrator**

REQUISITES:

Education: Bachelors in Computer Science/Engineering or equivalent from an HEC recognized university. Relevant professional certifications in Linux, Microsoft, virtualization, or cloud technologies are preferred.

Experience: At least 5 years of progressive experience in enterprise or corporate IT infrastructure and production environments.

Required Competencies:

- Strong hands-on expertise in Linux system administration (Ubuntu, Red Hat, CentOS, SUSE, Debian), including deployment, configuration, troubleshooting, performance tuning, hardening, and patch management.
- Good working knowledge of Windows Server administration, including Active Directory, Group Policy, DNS/DHCP, and routine system operations.
- Practical experience with containerization and orchestration technologies, specifically Docker and Kubernetes.
- Proficiency in managing and supporting enterprise services such as LDAP, Samba, DNS, Apache/Nginx/IIS, databases (MySQL/MariaDB/PostgreSQL/MongoDB), Zimbra email server, FTP, and application servers.
- Experience with virtualization platforms (VMware/Citrix) and familiarity with cloud environments, preferably Alibaba Cloud, will be an added advantage.
- Solid understanding of backup and recovery strategies, system security best practices, encryption, monitoring, and high-availability architectures.
- Strong documentation and communication skills, with the flexibility to support 24x7 rotational operations.
