WE ARE HIRING

✓ Business Analyst

- **Responsibilities:** The incumbent will elicit, analyze, and document detailed business requirements, user stories, and data needs, translating them into clear functional and non-functional specifications. The role involves identifying gaps in existing data processes and proposing improvement solutions. The incumbent will also support the planning, execution, and monitoring of data transformation projects, including risk and dependency management.
- **Qualification:** Bachelor's degree in business administration, information systems, software engineering, computer science, or a related field.
- **Experience:** 2 - 4 years of experience and a proven track record of working on data projects. The ideal candidate will have proficiency in SQL, familiarity with Agile methodologies, and hands-on experience with JIRA, Confluence, wireframing tools (Balsamiq, Figma, Draw.io), and charting/flow tools (Lucid Charts, MS Visio).

Applications should be submitted latest by **February 15, 2026**.

This position is based in Karachi.
