'SAY NO TO CORRUPTION'

28-04-2026

Job Title: Electrical Engineer
Department: Engineering
Reports To: Engineering Manager

Job Overview:

The Electrical Engineer is responsible for designing, implementing, and maintaining electrical systems and components to support the production of adult diapers. This role ensures that all electrical infrastructure within the facility is up to code, efficient, and reliable for daily operations.

Key Responsibilities:

- Design and maintain electrical systems for manufacturing equipment and machinery.
- Troubleshoot and resolve electrical issues to minimize downtime.
- Ensure all electrical installations comply with safety standards and regulations.
- Coordinate with other departments to ensure smooth production operations.
- Develop and maintain electrical maintenance schedules and logs.
- Perform electrical testing and inspections.
- Work with external vendors for procurement of electrical components and equipment.

Qualifications:

- Bachelor's degree in Electrical Engineering or related field.
- 2 to 5 years of relevant experience.
- Strong understanding of electrical systems, circuit design, and safety protocols.
- Experience with troubleshooting electrical systems in a manufacturing environment.
- Familiarity with industrial control systems and machinery.
- Strong problem-solving and communication skills.

Budget: 100,000.

Location: Site, Karachi.

Interested candidates can apply by send their resumes at hr-01@aferoz.com with position mentioned in subject.
