

DIRECTORATE OF INDUSTRIAL LIAISON

NED University of Engineering & Technology

University Road, Karachi-75270 Pakistan

Tel: (+92-21) 99261261-8, Ext: 2274, 2218, Email: dil@neduet.edu.pk

'SAY NO TO CORRUPTION'

04-11-2025

Full Stack Developer:

Key Responsibilities:

- Design, develop, and maintain scalable web applications using PHP, JavaScript, Node.js, and React.js.
- Participate in system architecture design and contribute to high-level technical decisions.
- Write clean, reusable, and well-documented code following industry best practices.
- Lead development of complex features and ensure timely delivery.
- Conduct code reviews and enforce coding standards across the team.
- Troubleshoot, debug, and optimize application performance.
- Collaborate with cross-functional teams (Product, QA, UI/UX) to ensure smooth project execution.
- Communicate effectively with clients to gather requirements, provide technical insights, and deliver progress updates.
- Provide technical leadership and mentorship to junior and mid-level engineers.
- Guide team members in solving technical challenges and improving productivity.
- Encourage knowledge sharing, innovation, and continuous improvement within the team.
- Take ownership of tasks and ensure accountability throughout the development lifecycle.
- Continuously research and adopt new tools and technologies to improve product quality.

Experience:

- Bachelor's degree in Computer Science, Software Engineering, or related field.
- 5-6 years of hands-on software development experience
- Strong experience in:
 - PHP (Laravel or similar frameworks preferred)
 - JavaScript (ES6+)
 - Typescript
 - Node.js
 - React.js
- Strong understanding of MVC architecture and REST API development
- Experience with MySQL/PostgreSQL, and MongoDB
- Proficient in Git and modern development workflows
- Solid understanding of software engineering principles and design patterns

Good to Have:

- Experience with React Native (mobile development)
- Familiarity with Docker or CI/CD pipelines
- Exposure to microservices architecture
- Experience with AWS/Azure/GCP
- Unit testing and TDD experience
