Teach a Kid Make Individual Life (TAKMIL)

PROBLEM STATEMENT:

26 MILLION CHILDREN ARE OUT OF SCHOOL IN PAKISTAN!

77% live in rural areas with no schools within 5-10 km.

No access to education, electricity, or internet.

Millions of children are deprived of learning and growth.

HOW TAKMIL STANDOUT:

Rural Area With No School:

TAKMIL reaches the unreached, operating in villages where schools are nonexistent within a 5-10 km radius. We bring education directly to children who would otherwise never see a classroom.

Accelerated Learning:

Our fast-track curriculum covers Grades 1-5 in 12 months and Grades 6-8 in 18 months, ensuring that out-of-school children catch up quickly and don't lose years of learning.

School in a Box:

TAKMIL's innovative, tech-driven model brings education to the most remote areas. With solar-powered tools, mini projectors, tablets, and Raspberry Pi, we create digital classrooms where traditional schools don't exist.

Non-Brick Model:

Instead of costly school buildings, TAKMIL transforms community spaces—homes, baithaks, and mosques—into classrooms, making education accessible, scalable, and sustainable.

Vision:

A Pakistan with zero out-of-school children, where every child has access to education and a brighter future.
