'SAY NO TO CORRUPTION'

07-11-2025

Utopia Industry is Currently Hiring for Java Developer and .NET Developer Positions.

"Full Stack Java Developer"

Multiple Openings!

Key Responsibilities:

- Design and develop scalable, full-stack web applications using Java Spring/Spring Boot for the backend, JavaScript frameworks (React, Vue, or Angular) for the frontend, and MySQL for database management.
- Create robust server-side logic, build RESTful APIs to connect with front-end services, and design efficient, scalable database schemas and queries.
- Collaborate with cross-functional teams to translate business requirements into technical specifications, ensuring high-quality code through unit/integration testing and peer code reviews.

Qualification:

- Possesses a Bachelor's degree in Computer Science or a related field.
- 1-3 years of relevant experience in full-stack development using Java Spring.
- Demonstrates in-depth knowledge of database systems, particularly MySQL, and a strong understanding of foundational front-end technologies.
- Exhibits a solid grasp of object-oriented programming (OOP) principles and design patterns.
- Complemented by excellent problem-solving, communication, and teamwork skills.

Location: Superhighway, Near Gulshan-e Maymar. Karachi

How to Apply:

To apply, please fill out the application form at the link below:

'SAY NO TO CORRUPTION'

".NET Developer Desktop/Web"

Multiple Openings!

Key Responsibilities:

- Design, develop, and maintain robust .NET desktop applications using frameworks like WinForms and WPF, in addition to building and optimizing background Windows Services.
- Integrate applications with various SQL databases (SQL Server, MySQL, SQLite) and manage hardware/device communication using ports (Serial, USB, Ethernet) and external DLLs.
- Oversee the complete application lifecycle, including debugging, creating installation packages, ensuring performance and security, and maintaining technical documentation.
- Collaborate with cross-functional teams to troubleshoot issues and ensure the smooth delivery and deployment of projects according to best practices.

Qualification:

- Possesses a Bachelor's degree in Computer Science or a related field.
- 2 years of professional experience in .NET desktop development, with strong proficiency in C#, WinForms, WPF, and SQL databases (MS SQL, MySQL, SQLite).
- Experienced in hardware and software integration, including device communication via ports (Serial, USB, TCP-IP), using external DLLs, and building or consuming services like REST APIs and WCF.
- Well-versed in the complete development lifecycle, with a solid understanding of OOP, design patterns, version control (Git), deployment tools (ClickOnce, MSI), and familiarity with third-party controls and reporting tools.
